Bandwidth Requirements

For a client's home internet speed E-Integrated SLP Services, PLLC recommends a minimum of 5 Mbps or greater for upload speed and a minimum of 25 Mbps or greater for download speed. Although preferred, this is not a requirement.

Step one in determining whether your home internet can manage our session will be to run a SPEED TEST from your home computer. Speed Tests are easily accessible via a simple internet search. An example of a free test is https://www.speedtest.net/.
